

## May BEIPC Meeting Update:

The BEIPC Staff and I discussed the potential for a May meeting and I discussed it with Chair, Mike Fitzgerald. We have decided to postpone the May meeting and agenda items to our August 18th meeting in Wallace. We will discuss the current agenda items as well as any new ones that develop during the construction season in the morning and have a tour of Upper Basin Remedy sites in the afternoon including Ninemile and Canyon Creek Drainages.

The BEIPC and IDEQ will also sponsor a booth at the North Idaho Fair, August 20 – 29th. We will need help in operating the booth for such a long time. I'll get back to folks later in the summer, but Andy and I would appreciate any folks available to assist us.

At this time, I also plan to have the November 10th BEIPC meeting in Spokane Valley as it is Washington's turn to sponsor a meeting. That meeting will include approving of the 2022 work plan.

Terry A. Harwood  
Executive Director, BEIPC
